

WNC RECEIVES STEM GRANT FOR WELDING TRAINING

Western Nevada College has received a \$142,000 STEM Workforce Challenge Grant to enhance its welding certificate and degree programs. The programs help meet the needs of the region's advanced manufacturers.

The grant will allow purchase of a robotic welder and associated curriculum. WNC will use college resources to upgrade its facilities to accommodate the new program. The new curriculum and tools will teach students about metallurgy, the mathematics of welding, and how to program a robotic welder.

WNC FALLON AND LOCAL PARTNERS TO OFFER TECH TRAINING

Western Nevada College will partner with the Churchill County Library and the Churchill Economic Development Authority in expeditiously training Fallon area residents for entry-level Information Technology positions. Tuition assistance is available for the Information Technology Gateway Training program, thanks to a \$46,322 Grant received by Churchill County Library. Training will begin this summer, and will take place at the library, with courses being taught by WNC faculty members. For Information: Sherry Black, 423-7565.
